Application for ExalyCampus

School management software for Liberian schools, from Exaly Interactive Studios.

Fill this in on a computer, or print it and use a pen — whichever suits you. Then send it to us; the address is on the last page. One form is enough, however many schools you run: fill in a Branch section for each one.

WHO IS APPLYING asked once, for you

Group or school name (as it should appear on the bill — one name, even if you run several schools)

Your position (for example proprietor, principal, bursar)

YOUR SCHOOL

☐ This is the main school

School name (the name of this school or branch)

Short label optional — how we tell it apart on the bill, e.g. Paynesville

Where it is optional — town or district

Pupils on the roll roughly how many

Staff and teachers how many people will use it

Head teacher's name optional

Head teacher's telephone optional

Head teacher's e-mail optional

Running more than one school? Turn over and fill in a Branch section for each of them. One application, one bill, one relationship — the number of schools is not the number of customers.

SEND IT TO and what happens next

E-mail this file to hello@exalycampus.online, hand it to the Exaly team in Monrovia, or telephone and we will take the details by hand. A person then rings the number you gave us — usually the same working day — to understand your school's size and what is giving the office trouble. Nothing is committed by sending this form.
